MINISTER OF MUNICIPAL AFFAIRS

127 Legislature Building, Edmonton, Alberta, Canada T5K 2B6 403/427-3744

August 20, 1990

I take pleasure in presenting to the Members of the Legislature, municipal officials and other interested parties, the 1990 edition of the Alberta Municipal Assistance Programs. This publication is an inventory of grants and cost-sharing programs implemented for the benefit of Alberta municipalities and other local government entities.

The material deals primarily with provincial financial assistance programs. However, certain federal programs have been included, particularly those which are co-ordinated by the province under agreement. Again this year, a separate table of contents has been provided for grants available to community associations, organizations and other interest groups.

Basic information is provided in a concise format and the departmental contact is identified for each program. This publication is for reference purposes only and is not intended as a substitute for the Provincial Statutes, Regulations or specific instructions and explanatory material issued from time to time by the various provincial government departments.

This year marks the 13 consecutive year of publication and the 14 such issue since its inception in 1976. The material was compiled by the staff of the Municipal Administrative Services Branch, Alberta Municipal Affairs. Alberta Municipal Affairs acknowledges the valuable contribution all departments have made over the years and expresses its appreciation to all officials for their time and effort expended to complete this publication.

Yours sincerely,

Raymond A. Speaker

Raymond A. Speaker
Minister

FOREWORD

This 1990 revised listing of Alberta Municipal Assistance programs replaces the 1989 publication in its entirety. This revised edition reflects any changes, additions or deletions to the provincial assistance programs. These additions, deletions, transfers or consolidations are reflected in the appendices.

The table of contents in this issue has been divided into two sections. The first section is a listing of all the programs. The second section is a listing of programs available not only to municipalities but also to community associations, organizations and other interest groups.

The various provincial grants and cost sharing programs have been compiled in this publication to provide municipal officials, government employees and the general public with concise descriptions of the numerous programs currently available to Alberta Municipalities, to other government entities and to organizations undertaking co-operative projects. Also included in this survey of available programs are those jointly funded by the Federal and Provincial governments.

The information contained in this booklet is NOT a complete inventory of the provincial assistance programs. The primary purpose of this publication is for reference only with more detailed information to be obtained from the contact person(s) listed on each program.

ALBERTA EDUCATION

5.1 EXPLANATION OF SCHOOL GRANTS

5.1.1 Numerous school grants that apply to all "school areas" are available from Alberta Education. These "school areas" include school districts, school divisions, counties, or a city or town having merged administration under the Municipal and School Administration Act. These grants are made possible through regulations under the School Act and the Department of Education Act.

There are, however, NO Alberta Education grants for which municipalities can directly make application. The only Alberta Education grants available must be applied for by the Board responsible for school administration.

6.2 ALBERTA WATER MANAGEMENT AND EROSION CONTROL PROGRAM

6.2.1 **OBJECTIVES** -- To provide technical and financial assistance for the enhancement and regional development of the province's water resources and to provide corrective measures where water creates conditions adverse to the public interest.

6.2.2 **ELIGIBILITY** -- This program is available to all Alberta local authorities.

6.2.3 **DESCRIPTION** -- Projects such as flood control and erosion control, water conservation and water based recreation may be initiated by a local authority, and a need for such a project must be established. Projects must be in the public interest and provide benefits to the general public or protect public investment. Detailed project planning and consideration of all aspects of water resources and environmental management must precede implementation. Normally, the local authority initiating the project is responsible for land acquisition, and operation and maintenance costs. In special cases the landowners may assume this responsibility or Alberta

Environment may cost-share the operation and maintenance.

Agreements are entered into between the Minister of Environment (under the Water Resources Act) and the local authorities. Projects are funded on the basis of the budgetary priority for water management established by the government.

6.2.4 **FINANCING** -- Cost sharing on a 75/25% basis (Government funding up to 75%). The program also provides for 86/14% funding for projects which enhance the agricultural landbase or agricultural production.

6.2.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.6.2, page 141.

6.2.6 **TIME FRAME** -- This is an ongoing program of the Provincial Government.

3) Garbage dumps and sewage lagoons.

4) Refinery sites or other mineral processing plants.

5) Industrial sites.

6) Irrigation canals or man-made water reservoirs.

ALBERTA MORTGAGE and HOUSING CORPORATION

8.1 COMMUNITY HOUSING PROGRAM

8.1.1 **OBJECTIVES** -- To provide subsidized rental housing for low and moderate income families and individuals who are unable to secure affordable private-sector accommodation.

8.1.2 **ELIGIBILITY** -- All communities are eligible for community housing. Demonstration of need is determined by a feasibility study undertaken by the Alberta Mortgage and Housing Corporation. The sponsor of Community Housing Projects is normally the local municipality.

8.1.3 **DESCRIPTION** -- Management and tenant selection are delegated to a local Housing Authority whose members are recommended by a nominating committee consisting of Municipal, Provincial and sometimes Federal representation and appointed by Provincial Ministerial Order. Tenants are selected on the basis of need, as determined by income, assets and housing condition. The municipality applies directly to the Alberta Mortgage and Housing Corporation for units. The Corporation reviews and researches submissions and establishes priorities which the Corporation Board approves within the framework of the annual budget.

8.1.4 **FINANCING** -- The Alberta Mortgage and Housing Corporation is the major developer of Community Housing, supplying 100% of up front capital costs for projects, through debentures written with the Alberta Investment Division of the Alberta Heritage Savings and Trust Fund. Canada Mortgage and Housing Corporation provides cost-sharing of up to 70% of net operating costs, including amortization, over 35 years. The balance of the costs are shared by AMHC and by the municipality. The municipal contribution is based upon 20% of net provincial costs after Canada Mortgage and Housing Corporation cost-sharing.

8.1.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.1, page 141.

8.1.6 **TIME FRAME** -- Community housing is an ongoing joint program of the Federal, Provincial and Municipal Governments.

8.1.7 **REFERENCE** -- Alberta Mortgage and Housing Corporation Act Chapter A-32.5 R.S.A. 1984

8.1.8 **FURTHER INFORMATION** -- Contact the local housing authority or nearest district AMHC office at the addresses listed in the back of this section. Applications for additional units based on unmet housing need should be directed to AMHC.

8.2 SENIOR CITIZENS LODGE PROGRAM

8.2.1 **OBJECTIVES** -- This program provides room and board accommodation at affordable rates for Alberta seniors who no longer wish to maintain an independent household. Lodges are located in cities and in rural areas so seniors may remain in or near their own community.

8.2.2 **ELIGIBILITY** -- The sponsor for a lodge is the Municipal Lodge Foundations with representatives from participating municipalities in the area who manage and operate lodges.

8.2.3 **DESCRIPTION** -- Under the revised 1988 mandate, the purpose of the lodge program is to provide affordable room and board for senior citizens who are functionally independent with the assistance available through existing community-based services and who would not otherwise be appropriately cared for in a health care facility. An accommodation charge covers meals and housekeeping services. Rates for 1990 are:

Single Occupancy Room	$491/month
Double Occupancy Room	$442/month
Double Room with single occupant	$575/month
Single Cottage Unit	$201/month
Double Cottage Unit	$295/month

Temporary accommodation is also available in some lodges through a Vacation Relief Program.

The administrative and financial responsibility for lodges is vested in the local Lodge Foundation. The Foundation Board is responsible for the hiring of staff and the management of the daily operation of the lodge.

8.2.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances 100% of the capital costs, including all furnishings and equipment, through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund.

Once the project is constructed, the Foundation becomes responsible for all operating costs, excluding amortization of the capital cost. Foundations may receive provincial government grants to help offset operating deficits through the Lodge Assistance Program.

Lodges committed prior to 1986 are fully financed by Alberta. For lodges committed in 1986 or after, AMHC and CMHC share either the operating deficits on the shelter component, including amortization of capital costs, or cost-share an interest write-down on the capital costs. These costs are shared 70%/30% by CMHC and AMHC respectively. Municipal Foundations are responsible for the operating expenses, a portion of which are offset by a lodge assistance grant from AMHC. AMHC provides for the capital costs through debenture borrowings from the Alberta Heritage Savings Trust Fund.

8.2.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.2, page 141.

8.2.6 **TIME FRAME** -- This is an ongoing program of the Provincial and Municipal Governments, with some Federal assistance for lodges constructed in 1986 and later.

Housing Corporation Act

8.3 LODGE ASSISTANCE PROGRAM

8.3.1 **OBJECTIVES** -- The Lodge Assistance Program provides financial assistance to lodge foundations to reduce lodge operating deficits thereby reducing the contributions required by the member municipalities of respective Foundations.

8.3.2 **ELIGIBILITY** -- Any foundation operating a senior citizens lodge pursuant to Section 9 of the Senior Citizens Housing Act is eligible for assistance for a portion of the operating deficits.

8.3.3 **DESCRIPTION** -- A foundation applying for the Lodge Assistance Grant is required to submit an audited financial statement of the lodge's operating costs to Alberta Mortgage and Housing Corporation. In addition, the foundation must complete an application showing the latest equalized assessments of all the contributing municipalities.

8.3.4 **FINANCING** -- Assistance is provided in the form of a grant from Alberta Mortgage and Housing Corporation to cover a portion of any operating deficits. The amount of assistance is determined on the basis of the documented financial statements of the lodge and the total equalized assessment of the foundation for the year in which the deficits occurred.

Funding ranges from 25% to 50% of the lodge foundation's operating deficits, but AMHC does not finance the portion of the deficits which is in excess of 35% of the foundation's total expenditures.

8.3.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.3, page 141.

8.3.6 **LODGE EXTENDED WARRANTY AND RENOVATION ASSISTANCE**

Upon application, AMHC will provide financial assistance to Senior Citizens Lodge Foundations to correct design or construction deficiencies beyond the time of the builder's warranty, or to upgrade safety systems in lodges as required.

8.3.7 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.3, page 141.

8.3.8 **TIME FRAME** -- Both are ongoing programs of the Provincial Government.

8.4 **SENIOR CITIZENS SELF-CONTAINED PROGRAM**

8.4.1 **OBJECTIVES** -- To provide senior citizens with affordable apartments in or near the communities in which they live.

8.4.2 **ELIGIBILITY** -- The sponsor of a self-contained project may be a non-profit organization which includes a municipality, a foundation or an organization constituted exclusively for charitable or benevolent purposes.

8.4.3 **DESCRIPTION** -- A non-profit society must be registered under The Societies Act of Alberta, and may include church groups, service clubs and other organizations. The sponsor is responsible for collecting information on the need for self-contained units in their area and contacting the Alberta Mortgage and Housing Corporation. Subsequent to construction, the sponsoring organization is responsible for the management and maintenance of the project. This mandate includes tenant application and selection.

Tenants must meet eligibility guidelines for acceptance. One year residency in Alberta immediately prior to application or ten years previous residency in Alberta is required. Allocation of units to tenants is prioritized according to income, assets and housing condition. Rent is based on 25% of a tenant's or couple's income.

8.4.4 **FINANCING** -- Alberta Mortgage and Housing Corporation finances 100% of capital costs through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund. Canada Mortgage and Housing Corporation provides cost-sharing of up to 70% of net operating costs, including amortization, over 35 years. The Province is responsible for the remainder of the costs.

8.4.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.4, page 141.

8.5 **RENT SUPPLEMENT PROGRAM**

8.5.1 **OBJECTIVES** -- To provide affordable accommodation for lower-income families, seniors, non-elderly singles and Alberta Assured Income for the Severely Handicapped or social assistance recipients.

8.5.2 **ELIGIBILITY** -- Any household in need is eligible.

8.5.3 **DESCRIPTION** -- Alberta Mortgage and Housing Corporation may provide affordable accommodation in Corporation-owned properties, private-sector buildings or federally-funded housing co-operatives.

Management and tenant selection may be delegated to a local housing authority or be handled by Alberta Mortgage and Housing Corporation or a housing co-operative. Tenants are selected on the basis of need, as determined by income, assets and current housing

condition, including housing without basic facilities or of an inadequate size.

8.5.4 **FINANCING** -- The program utilizes existing housing units with the rent supplement based on the difference between the market rent and 25% of family income. This difference is shared 70% by Canada Mortgage and Housing Corporation and 30% by Alberta Mortgage and Housing Corporation.

8.5.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.5, page 141.

8.5.6 **TIME FRAME** -- This is an ongoing program of the Provincial and Federal Governments.

8.6 NON-PROFIT NATIONAL HOUSING ACT PROGRAMS

8.6.1 **OBJECTIVES** -- To assist private and public non-profit organizations to develop and manage housing for individuals with special requirements whose unmet housing need is difficult to respond to under existing programs.

8.6.2 **ELIGIBILITY** -- Municipalities, lodge foundations and registered non-profit organizations are eligible. The organization must have the ability to develop and operate a residential project and be ineligible for capital funding under other social housing programs. If required, the sponsor group must be able to secure operating funding for support service costs from private or other government source.

8.6.3 **DESCRIPTION** -- The Special Purpose Housing Program provides a mortgage interest rate write-down to two per cent annually for emergency and transitional

housing for people with physical, mental or behavioral conditions.

The Private or Public Non-profit Housing Programs subsidize the operating deficits of projects owned either by private non-profit organizations or publicly and serving people in need of low-cost housing. The financing can be used to construct, purchase and/or renovate a facility. Financing is not available for projects which are already operating or are receiving other ongoing assistance.

8.6.4 **FINANCING** -- Under the Special Purpose Housing Program and Private Non-profit Housing Program, Alberta Mortgage and Housing Corporation may provide a 35-year mortgage for up to 100% of the projects' capital costs. The loan is provided through debentures from the Alberta Heritage Savings Trust Fund. The capital costs of Public Non-profit Housing projects are financed by Alberta Mortgage and Housing Corporation through debenture borrowings from the Alberta Heritage Savings Trust Fund.

Special Purpose Housing projects receive a mortgage subsidy, equivalent to a reduction in the mortgage interest rate to 2% per year. The Province subsidizes the operating deficits of projects developed under the Private or Public Non-profit Housing Programs.

Alberta Mortgage and Housing Corporation and Canada Mortgage and Housing Corporation share the cost of providing the subsidies on a 30%/70% basis respectively.

8.6.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.8.6, page 141.

ALBERTA PUBLIC SAFETY SERVICES

10.1 DISASTER ASSISTANCE PROGRAM

10.1.1 **OBJECTIVE** -- To provide financial assistance for eligible loss and damage as the result of an extraordinary event which the victim could neither prevent nor readily and reasonably be expected to insure against.

10.1.2 **ELIGIBILITY** -- All municipalities, individuals, institutions and businesses in Alberta.

10.1.3 **DESCRIPTION** -- A program administered by Alberta Public Safety Services which may provide financial assistance to applicants for eligible unanticipated expenditures due to an emergency and/or disastrous event. Assistance is not intended to provide full compensation for loss and damage, but to assist in recovery from the occurrence. Municipalities may have all eligible extraordinary costs of emergency operations and restoration of public property considered for reimbursement.

The program is designed to respond in two distinct circumstances. A disastrous event may be widespread in that it affects a large geographical area or a large number of people. It may also be extraordinary or historical in nature. In this case, the assistance is intended to help a community or communities with the recovery and alleviate the collective effects of the disaster that would delay recovery. The second case is the isolated event which may affect one or two individuals or families to such an extent that they may, through no fault of their own, not be able to survive economically.

Before loss and damages are considered for assistance, they must be deemed unusual and are normally reviewed by a Disaster Assistance Committee to ensure compliance with established guidelines, as follows:

a) For isolated cases the losses and damage have been so devastating as to threaten the economic survival of an individual or business;

b) Insurance is not readily or reasonably available to cover the loss and damage or it is of a type that is not usually purchased by prudent people;

c) Assistance would be in the public interest;

d) In a municipality, an unusual amount of non-insurable loss and damage has affected a number of people;

e) Events causing damage or loss were extremely unusual as classified by a competent authority. For example, historical records, evaluated by Alberta Environment, indicate a weather related event may be classified as extremely unusual;

f) The health, safety or welfare of the affected citizen or citizens have been at risk;

g) Persons directly affected, and/or municipal authorities, acted prudently and appropriately to protect property and minimize damage when, and if, warning was given.

10.1.4 **FINANCING** -- This program is normally cost-shared between the individual and the Provincial Government, the individual paying 20% after a $1,000 deductible is applied. Municipal costs are funded 100% by the Provincial government. When the financial expenditure for any single event reaches extraordinary proportions, it may qualify for cost sharing by the Federal Government.

10.1.5 **TIME FRAME** -- This is an ongoing program that was implemented in 1973. Applications may be made at any time.

c) The municipality must have up-to-date Mutual Aid Agreements in place with adjacent municipalities. Fire Agreements only do not meet with criteria.

d) The municipality must agree to man and dispatch the equipment within the mutual aid area as required dependent upon its own emergency situation (the usual cost recovery mechanisms for manpower and other equipment apply).

e) The municipality(ies) must agree to pay the total cost of the project and subsequently

f) The municipality must agree to insure and maintain the equipment and make equipment reasonably available for inspection by Alberta Public Safety Services.

h) Approved projects will be funded on an agreed cost-sharing ratio. There is no set formula or ratio for the sharing of costs which will be determined based on the relative merit of the proposal and other factors. Normally, a 50/50 ratio is set as a guideline and municipalities should use this ratio for planning purposes.

i) There is no set dollar limit for any one project, however projects over $200,000 and under $5,000 will be discouraged.

Projects that may be eligible under this program are:

a) Communications systems which provide improved communications between emergency services in a region.

- Incorporated municipalities (cities, towns, villages, summer villages, counties, municipal districts, improvement districts and special areas) who have prepared and endorsed a Community Tourism Action Plan.

Two or more municipalities may pool their allotments under the program to facilitate larger-scale projects of a regional nature.

Projects - Capital development projects which:

- Are tourism orientated projects; those projects which demonstrate the ability to attract tourists, to encourage tourists to stay longer and spend more money than they would have without the project.

- Are included in a municipally endorsed, Department of Tourism approved, Community Tourism Action Plan.

- Have been endorsed for funding purposes by the municipality.

- Will result in viable operations which will not require subsidization by the Province for on-going operation and maintenance costs.

- Do not involve the staging of events or marketing.

Feasibility analysis, design work and construction supervision fees related to fundable capital development projects may also be eligible for funding. A maximum 25% of the municipal funding allotment can be utilized for these costs.

14.1.3 **FINANCING** -- Projects approved by TIAALTA will receive funding in the amounts determined by the respective municipality as funding allocations permit. The maximum grant amount is 75% of the eligible project costs. The applicant is required to supply a minimum of 1/3 of the grant amount in cash equity.

Funds are allocated to municipalities according to the program funding formula. It is not a "first-come, first-serve" program.

Funding allocations are calculated on a per capita basis by municipality:

- $50 per capita for the first 2,000 people;

- $40 per capita for the next 3,000 people;

- $35 per capita for the balance.

The maximum allocation for a municipality will be:

- $300,000 for municipalities up to 15,000 population;

- $500,000 for municipalities between 15,000 and 100,000 population;

- $2,000,000 for municipalities over 100,000 population.

14.1.4 **GENERAL APPLICATION CRITERIA** -- An applicant to the Community Tourism Action Program must demonstrate that:

- The municipality has a completed and endorsed Community Tourism Action Plan which has been registered with Alberta Tourism.
- The project is contained in the municipality's Community Tourism Action Plan (if two or more municipalities are involved, the project must be included in each municipality's plan).
- The applicant can provide 1/3 of the grant amount in cash equity.
- Financing for the entire project has been confirmed.
- The project can maintain long term, continuing self-sufficiency without provincial government subsidization.
- The project is oriented to tourism as opposed to local recreational use.

14.1.5 **APPLICATIONS** -- Applications should be submitted on official program application forms. Application forms, program guidelines and sample applications are available from the Tourism Industry Association of Alberta, the Department of Tourism or from any municipality.

14.2 **TEAM TOURISM MARKETING PROGRAM**

14.2.1 **OBJECTIVES** -- The purpose of the program is to create integrated regional (ie. Alberta Tourist Zone) marketing strategies that will result in increased market penetration and impact, allowing all parts of the province to compete more effectively for tourism revenues.

It is designed to encourage greater visibility, improved knowledge, with increased and higher quality marketing of each regional destination, rather than individual facilities alone. Is designed to stimulate the tourism industry to allocate increased resources to marketing.

The program will provide $20 million from lottery funds over five years from September 1, 1988 to March 31, 1993.

14.2.2 **MARKETING PLANS** -- Each Tourist Zone in Alberta, in consultation with the tourism operators in that Zone, will prepare annual marketing plans for the region.

The plans will include details on marketing projects proposed for funding under this program. These projects must:

- be consistent with present or targeted tourism patterns in the Zone;
- meet the strategic marketing objectives of the Zone;
- take place in appropriate designated target markets for the region.

Once the marketing plan is endorsed, Zone approved applications for specific projects supporting the Zone marketing plans may then be submitted by the Zones to Alberta Tourism and TIAALTA (Tourism Industry Association of Alberta).

An annual plan is to be submitted by October 1 of each year, with a supplementary update submitted by July 1 of the following year, containing more detail on winter programs.

14.2.3 **FINANCING** -- An annual ceiling limit has been set for each Zone primarily based on visitor demand for commercial fixed roof accommodation in the Zone. The distribution of funds will be as follows:

Group	Zone Ceiling per Fiscal Year	Zones in Group
A	$500,000	10 - Calgary and District 11 - Edmonton

B	$300,000	1 - Chinook Country 4 - David Thompson Country 6 - Lakeland 9 - Jasper National Park 12 - Banff National Park
C	$200,000	2 - Gateway 3 - Big Country 5 - Battle River 7 - Evergreen 8 - Land of the Mighty Peace 13 - Game Country 14 - Midnight Twilight

14.2.4 **ELIGIBILITY**

Applicants - all tourism operators in a Zone may apply through the Zone for funding on a 50% operator's equity / 50% Team Tourism funding basis for marketing activities identified in the Zone's marketing plan.

"Operators" include the Zone itself; municipalities; organizations with an interest in tourism in the region, such as Chambers of Commerce and non-profit groups; individual tourism facility operators; service industry operators in combination with a tourism product; and consortia made up of any combination of the above.

Marketing activities of federal and provincial facilities are not eligible for funding. However, such facilities are not precluded from taking part in regional promotions.

Operators with facilities in more than one Zone must submit separate applications for funding through each applicable Zone (eg. Yellowhead Highway Association would apply through Zones 6, 11, 7 and 9).

Activities - all new or expanded tourism marketing activities consistent with current or targeted regional tourism patterns, Zone objectives, and Zone target markets may be eligible for funding on a 50/50 basis.

Examples of eligible marketing activities are:

- Advertising (trade and consumer print, TV and radio, billboards).
- Publications (lure and service, brochure's, self-guided or theme tours).
- Audio visual materials (slides, videos, films).
- Display materials (posters, display booths).
- Consumer and trade show attendance (booth, travel and subsistence).
- Media relations (blitzes, familiarization tours).
- Trade relations (sales calls, familiarization tours).
- Promotions and promotional materials (competitions, special events).
- Market research aimed at evaluating Team Tourism projects.
- Public relations assistance for the execution of marketing activities.

14.2.5 **APPLICATIONS** -- Applications under Team Tourism must be submitted to the appropriate Tourist Zone office. Application forms are available in each Tourist Zone office.

The department will contribute 75% of the construction and engineering costs of approved projects. The municipalities will be responsible for 25% of the construction and engineering costs.

An official designation of the hamlet boundaries and a Statutory Declaration of population are required together with plans and cost estimates for application for the program. Applications are provided to the Regional Director.

15.5.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.15.5, page 144.

15.6 STREETS IMPROVEMENT PROGRAM

15.6.1 **OBJECTIVES** -- To assist Alberta's towns, villages and summer villages with required capital road and street improvements.

15.6.2 **ELIGIBILITY** -- The program is available to all towns, villages and summer villages in the province.

15.6.3 **DESCRIPTION**

Regular Grant: The projects which are eligible for funding under the program are road and street grading and regrading, gravelling, base course, paving, good quality dust control, concrete sidewalks, curbs and gutters, roadway storm sewers and drainage systems, bridges and culverts, traffic control devices and street lighting, signing, right-of-way acquisition, relocation and adjustment of associated utilities, and engineering costs.

Community Safe Streets: The Community Safe Streets Program provides financial assistance to municipalities for the development of safety-enhancing projects such as traffic control devices, improved street illumination, and pedestrian safety installations.

Approval for funding of eligible projects requires proper engineering planning, design and construction supervision to ensure standards are maintained. The level of engineering involvement will vary with the complexity of the project. As well, where major road/street improvements are proposed, the municipality may need to demonstrate that the underlying underground utilities are in good condition. Approval for the grant may also be based upon the combination of work covered under the application with other projects in the area to reduce overall costs.

All materials and equipment engaged on projects eligible for funding must be from the private sector. Maintenance projects and operations are not eligible under the program.

15.6.4 **FINANCING** -- For the Streets Improvement Program, towns, villages and summer villages with permanent populations greater than 100 are eligible to receive grants for individual projects up to a total maximum

calculated as a base of $80,000 and a per capita of $100 for the first 1,000 population, plus an additional per capita allowance of $10 for every 1,000 population thereafter.

Summer villages with permanent populations less than 100 are eligible to receive grants for individual projects up to a total maximum calculated as a base of $40,000 and a per capita allowance of $100.

For the Community Safe Streets component, towns, villages and summer villages are eligible to receive a maximum grant based on an allotment of $2,000 plus $10 per capita.

The total grants available to a municipality will be based on its maximum population during the 6-year life of the program.

Alberta Transportation and Utilities will fund 75% of construction costs and 50% of engineering costs of approved projects. Municipalities will be responsible for 25% of the construction costs and 50% of the engineering costs.

The population figures utilized in the grant calculations will be in accordance with the most recent confirmed figures published by Alberta Municipal Affairs at the date of approval of the projects under the program.

15.6.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.15.6, page 144.

15.6.6 **TIME FRAME** -- This program was implemented April 1, 1989 and is scheduled to terminate March 31, 1995.

15.7 ALBERTA MUNICIPAL WATER SUPPLY AND SEWAGE TREATMENT GRANT PROGRAM

15.7.1 **OBJECTIVES** -- To assist municipalities with the capital cost of installing modern and adequate facilities for water supply and sewage treatment.

15.7.2 **ELIGIBILITY** -- Cities (under 100,000 in population), towns, villages, summer villages, hamlets and regional commissions established under the Municipal Government Act are eligible for assistance from this program. In addition, the Minister may require that the appropriate municipal grants be directed to the regional commissions where it has been demonstrated that the implementation of a regional water and/or sewage scheme is the most cost-effective and environmentally sound proposal. Cooperatives are not eligible under this program and should refer their situation to the county, municipal district or improvement district in which they operate.

15.7.3 **ELIGIBILITY OF PROJECT** -- Water supply projects, such as water storage facilities, water treatment plants, wells, supply lines, and some transmission mains, are eligible for assistance. In a municipality without any existing water system, the distributions system is also eligible.

Sewage treatment facilities, some trunk sewers and outfall lines are eligible for grants, as is a sewage collection system if there was no previous system in the community.

Small projects, such as the addition of fluoridation or chlorination facilities, are also eligible.

The department should be contacted for an assessment of project eligibility when undertaking any water or sewer project.

15.7.4 **FINANCING** -- The demand for financial assistance may exceed the available budget, and it is therefore stressed that this program will be administered on the basis of funding being provided only to projects as prioritized by the Government of Alberta.

First-dollar sharing of costs was introduced in July 1983. Projects costs are shared on a 75/25 provincial/municipal basis for the first 600 persons, and on a 50/50 basis for the population from 601 to

100,000. The grant calculations take into consideration the accumulated costs of projects which have received grants since the introduction of the program in April 1979. Municipalities receiving assistance from this grant program will be encouraged to support Alberta companies supplying goods and services to the waterworks and sewage industry.

The upper limit remains at $2,100 per capita for communities of 600 or more population. Communities of less than 600 population will be eligible for a proportionately larger grant. In this instance the formula is $2,100 + $5(600 - population) for the upper limit. For example, a community with a population of 300 would have an upper limit in the program of $2,100 + $5(600 - 300), or $3,600. Now all communities, regardless of size, will be reasonably assured of the opportunity of having affordable water and sewage systems.

The specific grants will be calculated by the Department of Transportation and Utilities in accordance with established priorities and criteria. Municipalities must not assume that a grant will be provided until such time as written confirmation of said grant is received from the Minister of Transportation and Utilities.

15.7.5 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.15.7, page 144.

NOTE: The budget allocation includes an allowance for the Agricultural Processing Industries Grant Program.

15.7.6 **TIME FRAME** -- This assistance program was implemented on April 1, 1979 and is an ongoing program of the Provincial Government.

15.8 AGRICULTURAL PROCESSING INDUSTRIES GRANT PROGRAM

15.8.1 **OBJECTIVE** -- To assist municipalities with the development or expansion of water and sewer facilities to accommodate agricultural processing industries.

15.8.2 **ELIGIBILITY** -- Assistance is available to municipalities eligible under the Alberta Municipal Water Supply and Sewage Treatment Grant Program, i.e. cities (under 100,000 population), towns, villages, summer villages and hamlets.

15.8.3 **ELIGIBILITY OF PROJECT** -- Municipal water and sanitary sewage projects that are required to accommodate agricultural processing industries are eligible for financial assistance. Water projects, such as distribution system extensions and replacements, intakes, supply lines, wells, treatment and storage facilities, and transmission lines are included. Sewage projects including collection system extensions or replacements, treatment facilities and outfall lines are also eligible. The department should be contacted for an assessment of project eligibility prior to undertaking a water or sewer project.

15.8.4 **FINANCING** -- Projects approved under the program are cost-shared on a 75/25 provincial/municipal basis for the first 600 persons and on a 50/50 basis for the population from 601 to 100,000.

This new program allows for the removal of the $2,100 per capita funding limit. The demand for financial assistance may exceed the available grant dollars, and therefore it is stressed that this program will be administered on the basis of funding being provided only to projects as prioritized by the Government of Alberta.

15.8.5 **PROVINCIAL BUDGET** -- This program is administered in conjunction with the Alberta Municipal Water Supply and Sewage Treatment Grant Program.

15.8.6 **TIME FRAME** -- This program was implemented on April 1, 1986 and is currently set to expire on March 31, 1991.

15.9 REGIONAL UTILITIES PROGRAM

15.9.1 **OBJECTIVES** -- To provide cost-effective and environmentally acceptable water and sewage facilities jointly to two or more municipalities.

15.9.2 **ELIGIBILITY** -- The following criteria is used to establish eligibility under the Regional Utilities Program:

1. The urban and rural municipalities serviced must be considered municipalities under the Municipal Government Act. In some cases, commissions are formed under the Regional Municipal Services Act.

2. The development of regional systems should be more cost-effective and/or environmentally desirable than independent facilities.

15.9.3 **FINANCING** -- Assistance may be provided to municipalities/commissions in two ways:

1. Capital Projects

   The province initially provides funds for the project and oversees the total construction and management of the project. Once completed, the facilities are turned over to the municipalities, with the municipalities reimbursing the government for their share of the costs.

2. Grants

The municipalities manage the implementation, design and construction of the project, with the funds being provided to the municipalities in the form of a grant calculated as per the terms of the Alberta Municipal Water Supply and Sewage Treatment Grant Program.

15.9.4 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.15.9, page 144.

15.9.5 **TIME FRAME** -- This assistance program was implemented on April 1, 1979 and is an ongoing program of the Provincial Government. However, it is anticipated that the majority of future projects will be undertaken by the municipalities/commissions.

15.10 **NORTHERN SUPPLEMENTARY FUND ASSISTANCE PROGRAM**

15.10.1 **OBJECTIVE** -- To provide funding in northern Alberta for initiating or improving water and sewage facilities where, even with local revenues and other sources of income, the costs of projects are far in excess of the provincial norm.

15.10.2 **ELIGIBILITY** -- Available to municipalities within the jurisdiction of the Northern Alberta Development Council. Preference will be given to communities with a demonstrated health problem, low tax base, and insufficient sources of other funds so as to render the project financially feasible. Effective April 1, 1990 funding for providing water and sewage

facilities within Metis Settlements will come from the Metis Settlements Accord.

15.10.3 **FINANCING** -- The program is administered by Transportation and Utilities. Overall program coordination and direction is provided by the Northern Supplementary Committee consisting of representatives from Alberta Municipal Affairs, Northern Development Branch, and Alberta Transportation and Utilities.

Applications will be assessed similar to projects receiving funds under the Alberta Municipal Water Supply and Sewage Treatment Grant Program. Basically, the Northern Supplementary Fund will serve as a mechanism to reduce the community's share of the project cost beyond those funds that may be available from Alberta Municipal Water Supply and Sewage Treatment Grant Program.

15.10.4 **PROVINCIAL BUDGET** -- See Provincial Funding Allocation Section 16.15.10, page 145.

15.10.5 **TIME FRAME** -- This fund was implemented in 1977 and is currently set to expire on March 31, 1992.

15.14 **RAILWAY CROSSING IMPROVEMENT PROGRAM**

15.14.1 **OBJECTIVES** -- To assist municipalities with their share of the capital cost of improving railway crossings on roads under municipal jurisdiction (excluding roads under city administration).

15.14.2 **DESCRIPTION** -- The program is designed to improve safety at existing railway crossings. The department provides financial assistance for the installation of automatic protection signals, clearing of sight lines, improving of grades, etc. The program also provides for technical assistance by the department in obtaining new railway crossings. No financial assistance is provided for new crossings.

Municipalities must apply to Alberta Transportation and Utilities to make their needs known. Alberta Transportation and Utilities, will, in turn, either submit the application to the National Transportation Agency for approval of the proposed improvements and to Transport Canada for a financial grant or advise the municipality of the procedures to be followed in submitting it's own application. The department will also provide engineering or technical information required to support the application.

Alberta Transportation and Utilities will provide Railway Crossing Advance Warning signs for any crossings where the signs are required. Signs may be requested on an individual crossing basis or will be provided by Alberta Transportation and Utilities as each rail line is subjected to a safety review.

15.14.3 **FINANCING** -- At grade crossings on secondary roads, the department pays 100% of the road authority's share (municipality's share) of the cost of the improvement.

At crossings on local roads, the department pays 50% of the road authority's share (municipality's share) of the cost of the improvement.

The department does not contribute toward the cost of maintaining crossings or automatic protection signals.

15.15 RAILWAY FACILITY RELOCATION POLICY

15.15.1 **OBJECTIVES** -- The Province recognizes the potential developmental benefits, to Alberta's smaller cities, of access to centrally located railway land no longer required for railway operating purposes. In keeping with this recognition, the Province wishes to assist these cities in carrying out railway facility relocation projects.

15.15.2 **BACKGROUND** -- In 1975, the Province of Alberta, jointly with the federal government, sponsored railway relocation studies undertaken by Alberta cities under the Canada Rail Relocation and Crossing Act. In October, 1977, the federal government withdrew from further funding of studies and announced it had cancelled any consideration of assisting actual rail relocation projects.

The Province's involvement in railway relocation studies was shortly thereafter expanded, including an ongoing commitment to assist the implementation of viable railway relocation projects.

15.15.3 **ELIGIBILITY CRITERIA** -- The Railway Facility Relocation Policy will apply to Alberta's smaller cities who are able to demonstrate that:

1. Substantial quantifiable benefits to the urban development objectives of the city can be achieved through release of land presently occupied by railway facilities, and

2. The potential value of lands released through railway facility relocation project will make a substantial contribution to the cost of the relocation project, and

3. Existing railway facilities create a significant barrier to the provision of efficient transportation services within the city, and

4. In the view of the affected railway, the relocation of facilities is feasible in light of system-wide operational requirements, and

5. Existing railway rights of way provisions through the city are maintained under the proposed railway facility relocation project.

The Railway Facility Relocation Policy is not designed to apply to the two largest cities of Alberta, who generally have the in-house planning and financing capability of dealing with such projects, nor to Alberta towns who would not normally be able to meet the eligibility criteria of this policy.

Notwithstanding the above, the Province may, upon specific project application, determine this policy, or portions thereof, to apply to a larger city or town if such a project meets the eligibility criteria and could not proceed without the Provincial involvement provided by this policy.

15.15.4 **THE DELIVERY PROGRAM**

Part I - Studies - The Province will contribute 50% of the cost to a city, of carrying out an approved railway facility relocation feasibility study. Involvement of the affected railway, the relevant and/or local planning authority must be solicited and obtained.

Part II - Negotiations - Where the railway relocation feasibility study determines the proposed project to be viable, meeting all eligibility criteria of this program, the Province will assist the city in negotiating the concurrence of the affected railway.

Part III - Relocation Projects - Where the joint province/city negotiations with the affected railway have resulted in a mutually acceptable plan for railway facility relocation and for the sharing of costs thereof, the Province will assist the city in financing the implementation of the project. The Provincial financial contribution will be 50% of the city's costs in implementing a railway facility relocation project. The 50% Provincial cost sharing involvement, while considered the usual level of city and Provincial commitment to a project, may vary from project to project on the basis of the specific needs of a city and the estimated timing of returns from sales of lands released by a relocation project.

Subject to the preparation of adequate roadway and public transportation plans, and the preparation and guarantee of a suitable land-use plan for lands released by the project, the Province will jointly with the city, take an investment position in the project. The eligible urban municipality shall establish a mechanism to implement the project and to dispose, by sale or lease, of released lands.

First right of refusal on the purchase or lease of such lands shall be offered to the city and the Province, but in all cases, sales or leases shall be at the then prevailing market rates.

Revenues from the sale or lease of lands released by a railway facility relocation project will, after meeting the administrative costs of such transactions, be distributed between the city and the Province in the same ratio as each contributed to the cost of the project.
